

SHARMA INSULATION

Hot & Cold Insulation, Aluminium Cladding, Water Proofing, Fabrication Works

Company Profile

SHARMA INSULATION

Hot & Cold Insulation, Aluminium Cladding, Water Proofing, Fabrication Works

SHARMA INSULATION is a company specialized in engineering, supply and installation of insulation, fireproofing, decontamination of asbestos and soundproofing; it has been part of the industrial sector for many years, with a flexible structure able to operate in a short time, respecting the work schedule agreed with the Customer.

The activity is divided into more sections

1. Supply of insulation material (mainly for cryogenic), engineering and 3D modelling of the cutting specifications on the basis of drawing supplied by the Customer. The prefabrication is done using the most advanced CNC equipment.
2. Installation of hot & cold insulation in industrial plant.
3. Turbine insulation
4. Acoustic insulation
5. Scaffolding
6. Asbestos removal

FIELDS OF APPLICATION INSULATION WORK

- Chemical and petrochemical plants
- Refineries
- LNG plant
- Pharmaceutical plants
- Thermoelectric and nuclear power plants
- Food industry
- Cement companies
- Steel mill
- Civil building installations
- Engineering companies
- Shipyard
- Cold Storage
- Menthol Plant

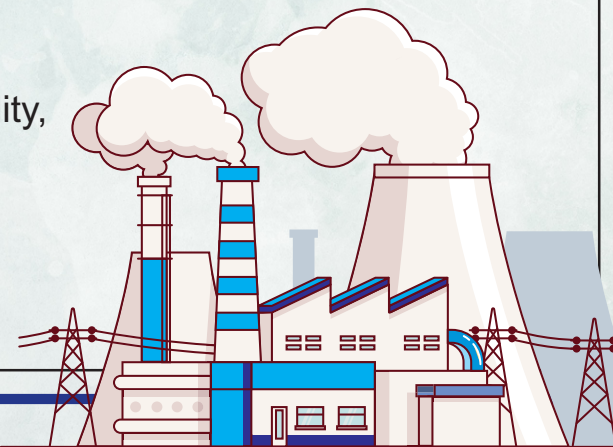

VISION

At Sharma Insulation, our vision is to become a trusted leader and innovator in industrial insulation and allied services. We strive to set new standards in hot and cold industrial insulation, aluminum cladding, waterproofing, and fabrication services by consistently delivering excellence, efficiency, and reliability. Our aim is to support industries across various sectors by enhancing the longevity, safety, and performance of their infrastructure through top-quality insulation and cladding solutions.

Our commitment is to offer advanced, sustainable, and customized insulation services that help our clients optimize energy efficiency, reduce operational costs, and minimize environmental impact. We envision a future where every project we undertake reflects our dedication to quality, innovation, and customer satisfaction.

Through continuous skill development, investments in the latest technology, and a highly skilled workforce, Sharma Insulation is driven by a passion to be at the forefront of industry advancements. We aspire to be the first choice for industries seeking reliable and effective solutions for insulation, waterproofing, and fabrication—solutions that prioritize durability, safety, and adherence to environmental standards.

By fostering strong partnerships and a customer-centric approach, we aim to contribute positively to our clients' success while setting a benchmark in the industrial insulation industry. At Sharma Insulation, our vision is not only to insulate structures but also to build lasting relationships grounded in trust, quality, and a shared commitment to sustainable progress.

MISSION

Our mission at Sharma Insulation is to deliver top-quality industrial insulation, aluminum cladding, waterproofing, and fabrication solutions that meet the unique needs of our clients. We are dedicated to helping businesses enhance operational efficiency, safety, and energy conservation through expertly designed and sustainably crafted insulation services.

Our focus is on creating value for our clients through:

Excellence in Service: Ensuring every solution we deliver is safe, efficient, and of the highest quality.

Customer-Centric Approach: Listening to our clients' needs, tailoring solutions to their requirements, and consistently achieving customer satisfaction.

Sustainability: Developing eco-friendly practices to help clients achieve energy savings and operational resilience.

Growth and Innovation: Investing in continuous learning, training, and technological advancements to remain at the forefront of the industry.

At Sharma Insulation, our mission is to be a trusted partner in our clients' success by providing services that stand the test of time, enabling them to operate more safely and efficiently in an ever-evolving industrial landscape.

SECTORS OF OPERATIONS INDUSTRIAL INSULATION

sharmainsulation.com

- Engineering, supply and installation of industrial insulation, whether hot or cold, for piping, equipment, special components, boilers, tanks, turbines etc.
- Insulation with special materials and techniques for components at extremely high and extremely low temperatures (Cryogenic)
- “Energy survey” with infrared cameras to find hot spot or heat losing area to optimize insulation and therefore reduce energy cost.
- Design, supply and fitting of insulating removable blankets for gas and steam turbines, valves and flanges, created with special fabrics, glass, silica, silicon coated, aluminised, stainless steel mesh etc.) in order to withstand high temperatures and chemical agents.

AIR LIQUIDE S.P.A. INSULATION PIPES SYSTEM **SANNAZZARO DE BURGONDI (PV)**

ALUMINIUM CLADDING

Sharma Insulation specializes in high-quality aluminum cladding services, providing durable and efficient protective solutions for industrial facilities. Our aluminum cladding work is designed to protect insulation systems from environmental factors, such as moisture, UV radiation, and mechanical impact, ensuring the longevity and efficiency of thermal insulation.

Our team of skilled professionals works with precision to deliver custom cladding solutions that align with specific client requirements. We use premium-grade aluminum materials, offering a balance of strength, corrosion resistance, and aesthetics to enhance the overall durability and appearance of insulated surfaces. Whether for industrial pipelines, tanks, or equipment, our aluminum cladding ensures an extra layer of protection, maximizing energy efficiency and reducing maintenance costs.

Key Features of Our Aluminum Cladding Work:

High Durability: Protects insulation from environmental elements and mechanical damage.

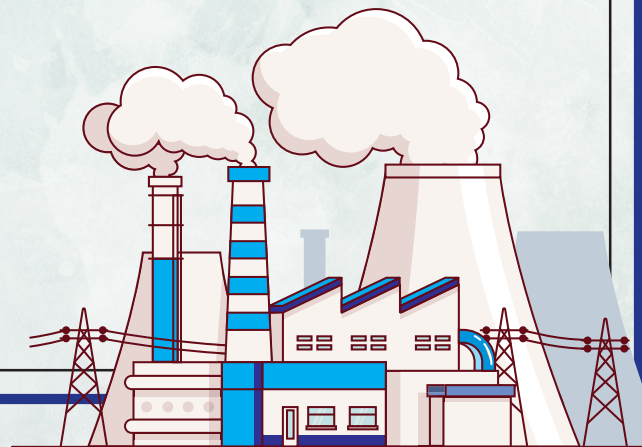

Corrosion Resistance: Suitable for harsh industrial environments.

Custom Fit: Tailored to fit various shapes and sizes, ensuring complete coverage.

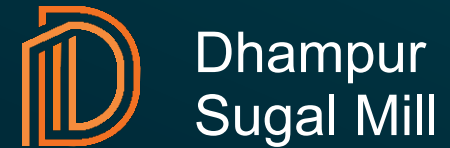

Aesthetic Appeal: Provides a polished, professional look to industrial installations.

Enhanced Insulation Performance: Retains thermal integrity, contributing to energy savings.

At Sharma Insulation, we are committed to delivering top-notch cladding solutions that not only enhance safety and efficiency but also add value to your industrial assets.
